

Did you know that lung cancer often doesn't display symptoms until it's too late?

We are offering free lung health checks to those aged between 55 and 74 who currently or used to smoke.

If you are displaying any of the below symptoms, please contact your GP as soon as possible:

- A persistent cough or change in your normal cough
- Coughing up blood
- Shortness of breath
- An ache or pain when breathing or coughing
- Unexplained tiredness or weight loss
- Loss of appetite
